- COVID-19 Response. The General Manager has been monitoring the daily County's Office of Emergency Services conference calls in order to understand the changing response from the State and local levels. The office remains closed to the public but staff continues to provide service to the community through phone and email contact. I want to assure the community that Board of Directors and staff have taken every step possible to protect the health and wellbeing of our community members and our staff. I am always available by phone or email to answers any questions you may have; 805-528-9379 or rmunds@losososcscsd.org.
- The General Manager has been participating on a weekly Special Districts Managers teleconference/Zoom meeting. This has been an opportunity for local managers to discuss many issues including COVID-19 response challenges, budgets and other relevant topics.
- The Flume Water Smart Monitor rebate program remains very popular. As of April 30th, 82 rebates have been issued which is much more than anticipated at this stage of the program. Needless to say, we are excited that the program has been embraced by our water customers and we are looking forward to more Flume devices being rebated in our water service area.
 - Just a reminder that the District's ENews Online newsletter is available. Community Members can subscribe to the newsletter on the District's website and the newsletter is also made available on the Los Osos Community Services District Facebook page. The newsletter is a way for the District to connect with the residents and inform them of interesting content about things happening in the District and the community. The newsletter is published on monthly basis so go check out what's new!
