- **Regional Solid Waste Rate Setting Manual Update Meeting.** As described in Agenda Item 5B, the solid waste rate setting process is fairly complicated and is guided by the City of San Luis Obispo's rate setting manual that was developed back in 1994. The first meeting of a regional effort to update the manual was held during March. The District will continue working on the update with our regional partners. Staff will bring more details regarding the update as information is available.

- **Clint Requa, Water Resources Operator, 10 Year Work Anniversary.** Clint recently celebrated his 10-year anniversary with the District. He is currently a Water Resource Operator II and excels in his ability to fix all things mechanical. Clint is a valued long-term employee and we look forward to working with him well into the future.

- **Drought Reminder.** We want to remind the community even with the recent rains, it is still important to pay close attention to your water use, turnoff your outdoor irrigation and always check for leaks around your home and yard. If you need assistance, please call the office at 805-528-9370.
