RE: Ferrell Avenue Pathway

Greetings Director Matthew Fourcroy, Chairperson:

We, the Executive Director and Board President of Bike SLO County, strongly support the Ferrell Avenue Pathway project in Los Osos. Bike SLO County is committed to serving our community by promoting improved bicycle safety through education and expanded infrastructure through advocacy. We offer many programs that serve to educate and empower cyclists of all ages and abilities. The single biggest obstacle community members cite as why they do not make more trips or commute by bicycle is the lack of safety they feel riding on roadways shared with motor vehicles present. The Ferrell Avenue Pathway project meets our mission and will directly serve a wide group of people from elementary school students to adults by building a safe and connected bikeway away from motor vehicles, serving people on bikes and on foot.

The Ferrell Avenue Pathway project will create an upgraded all-season surface suitable for all users. We understand that the unimproved surface makes it difficult at the best of times, and so we support the use of the slightly more expensive asphalt over the use of decomposed granite for year-round ease of users.

On behalf of Bike SLO County, we offer this letter of support for the Ferrell Avenue Pathway project.

Sincerely,

Gary Havas
Board President

Rick Ellison
Executive Director

Ferrell Avenue Pathway Project
