

**LOS OSOS COMMUNITY SERVICES DISTRICT
202~~5~~4 INVESTMENT POLICY**

1. INTRODUCTION

In accordance with California Government Code § 53646 which directs the District to annually prepare and adopt a written statement of investment policy, this policy establishes the standards as prescribed by state law under which the District's Finance Officer shall conduct business with financial institutions with regard to the investment process.

2. POLICY

The Los Osos Community Services District shall invest public funds in such a manner as to comply with state and local laws; ensure prudent money management; provide for daily cash flow requirements; and meet the objectives of the Policy, in priority order of Safety, Liquidity and Return on investment. In accordance with the Municipal Code of the Los Osos Community Services District and under authority granted by the Board of Directors, the General Manager is responsible for investing the unexpended cash in the District Treasury.

3. PURPOSE AND SCOPE

This investment policy is intended to outline the guidelines and practices to be used in effectively managing the District's available cash and investment portfolio. It applies to all cash and investment assets of the District including but not limited to moneys held in sinking funds, reserves or designations, trust funds or surplus funds not required for the immediate necessities of the District. Proceeds of debt issuance shall be invested in accordance with the permitted investment provisions of their specific bond indentures. District monies not required for immediate expenditure will be invested in compliance with governing provisions of law (California Government Code § 53600 et seq.) and this policy.

4. FINANCE OFFICER

The Board of Directors appoints the General Manager as the District Finance Officer and Treasurer and delegates the principal management responsibility for the deposit and investment of District monies, funds and financial assets pursuant to this statement of investment policy. In the event of an extended absence of the General Manager, the Acting General Manager or Interim General Manager will act as the Acting District Finance Officer and Treasurer. The services of any investment or financial advisor to the District shall be governed by the terms and standards set forth in this Policy.

5. OBJECTIVES

The District's primary investment objectives, in order of priority, shall be:

- A. Safety:** Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The District shall seek to preserve principal by mitigating the two types of risk: credit risk and market risk.

1. Credit risk, defined as the risk of loss due to failure of the issuer of a security, shall be mitigated by investing in issuers that carry the direct or implied backing of the U.S. Government (including, but not limited to, the U.S. Treasury, U.S. Government Agencies, and federally insured banks). The portfolio will be diversified so that the failure of any one issuer does not unduly harm the District's capital base and cash flow.
2. Market risk, (aka "interest rate risk") defined as market value fluctuations due to overall changes in the general level of interest rates shall be mitigated by limiting the maximum maturity of any one security to five years, structuring the portfolio based on historic and current cash flow analysis eliminating the need to sell securities prior to maturity and avoiding the purchase of long-term securities for the sole purpose of short-term speculation. Moreover, it is the District's full intent, at the time of purchase, to hold all investments until maturity to ensure the return of all invested principal dollars. Limited exceptions will be granted for security swaps that would improve the portfolio's yield and/or credit quality.

B. Liquidity: The District's investment portfolio will remain sufficiently liquid to enable the Los Osos Community Services District to meet all operating requirements which might be reasonably anticipated.

C. Return on Investments: The District's investment portfolio shall have the objective of attaining a comparative performance measurement or an acceptable rate of return throughout budgetary and economic cycles. These measurements should be commensurate with the District's investment risk constraints identified in this Investment Policy and the cash flow characteristics of the portfolio.

6. STANDARDS OF CARE

A. PRUDENCE

The standard of prudence to be used by the Financial Office and/or the designated representative shall be the "prudent investor" standard and shall be applied in the context of managing the overall portfolio. Persons authorized by the Financial Officer to make investment decisions on behalf of local agencies investing public funds are trustees and therefore fiduciaries subject to the prudent investor standard which states, "When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agencyDistrict, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agencyDistrict".

The Financial Officer and other individuals assigned to manage the investment portfolio, acting within the intent and scope of the investment policy and other written procedures and exercising due diligence, shall be relieved of personal responsibility and liability for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely manner and appropriate action is taken to control

adverse developments.

B. DISCLOSURES
