Matthew D. Fourcroy
Troy C. Gatchell
Christine M. Womack

General Manager
Ron Munds

District Accountant
Robert Stilts, CPA

Unit Chief
John Owens

Battalion Chief
Paul Provence

SLO County Planning Department Meeting. The BMC parties and County Planning staff met this month. The main topic was the Water Offset/Conservation Study that has been in the process for quite some time. A draft report will be reviewed by the BMC parties' staff mid-May with the final public draft available mid-June.

Cabrillo Basin. Cabrillo basin repairs are almost complete; the recent dry weather is helping move the project along. The basin liner installation began on Thursday, April 20th and is now complete. Demobilizing of the site will take place shortly after. There are still some issues that need to be resolved regarding the inspection of the entire north basin berm to ensure its integrity and the overflow structure and outfall onto Pecho Valley Road. It is anticipated that there will be a follow up project to complete these items and more during the next couple of years.

FEMA Reimbursement Updates. Staff had an in-person meetings with FEMA staff last week. Everything seems to be on track. As the emergency repair project wraps up, staff will be submitting all the documentation to FEMA's consideration for the project.

Cal Fire Schedule A Charges. Staff met with Cal Fire and County staff to review the work performed to date on the audit of past charges going back to FY 2018-19. There are still some data gaps that Cal Fire is working on and some questions regarding the County overhead charges. Though the work is not complete, it appears there will be a refund owed to the District.
